

Corporation M has outstanding 400 shares of common stock of which A, B, C and D each own 100 shares or 25 percent. No stock is considered constructively owned by A, B, C or D under section 318. Corporation M redeems 55 shares from A, 25 shares from B, and 20 shares from C. For the redemption to be disproportionate as to any shareholder, such shareholder must own after the redemptions less than 20 percent (80 percent of 25 percent) of the 300 shares of stock then outstanding. After the redemptions, A owns 45 shares (15 percent), B owns 75 shares (25 percent), and C owns 80 shares (26 2/3 percent). The distribution is disproportionate only with respect to A.
