

1 First Constructive Acquisition
(Jan. 1, Year 1)

2 Second Constructive Acquisition
(June 1, Year 1)

3 Actual Target Stock Acquisition
(Dec. 1, Year 1)

4 Ending Point

(i) On January 1 of Year 1, P purchases 75 percent in value of the R stock. On that date, R owns 4 of the 100 shares of T stock. On June 1 of Year 1, R acquires an additional 16 shares of T stock. On December 1 of Year 1, P purchases 70 shares of T stock from an unrelated person and 12 of the 20 shares of T stock held by R.

(ii) Of the 12 shares of T stock purchased by P from R on December 1 of Year 1, 3 of those shares are deemed to have been acquired by P on January 1 of Year 1, the date on which 3 of the 4 shares of T stock held by R on that date were first considered owned by P under section 318(a)(2)(C) (i.e., $4 \times .75$). The remaining 9 shares of T stock purchased by P from R on December 1 of Year 1 are deemed to have been acquired by P on June 1 of Year 1, the date on which an additional 12 of the 20 shares of T stock owned by R on that date were first considered owned by P under section 318(a)(2)(C) (i.e., $(20 \times .75) - 3$). Because stock acquisitions by P sufficient for a qualified stock purchase of T occur within a 12-month period (i.e., 3 shares constructively on January 1 of Year 1, 9 shares constructively on June 1 of Year 1, and 70 shares actually on December 1 of Year 1), a qualified stock purchase is made on December 1 of Year 1.
